

Version 11

# Estimating 3 Day Training Guide

---

Custom Elements • Construction Data • Parts & Assemblies • PDF Trace • Custom Framing • Quotes

## **About this Guide**

The *Estimating Training Guide* focuses specifically on preparing a 3D model for estimating purposes, framing walls, floors, ceilings and roofs, and generating a customizable quote.

The course begins with a look at the various areas of your Envisioneer software, and shows you how to set up the catalog and set up a project prior to drawing. You will learn how to import a PDF and trace the 2D plan, then add more building elements to create a complete 3D model.

Framing is covered in detail, as well as the use of the integrated Quote Generator application.

# TABLE OF CONTENTS

About this Guide.....	ii
<b>PHASE A: INTRODUCTION TO ENVISIONEER.....</b>	<b>A-1</b>
Getting to Know the Interface .....	A-1
Drawing Basics.....	A-2
<b>PHASE B: SETTING UP A PROJECT.....</b>	<b>B-1</b>
Starting a New Project.....	B-1
Setting Up Building Locations .....	B-2
Defining Framing Options .....	B-3
<b>PHASE C: SETTING UP THE CATALOG .....</b>	<b>C-1</b>
Exploring the Catalog .....	C-1
Adding Groups and Elements .....	C-14
<b>PHASE D: INTRODUCTION TO MODELING .....</b>	<b>D-1</b>
Importing a PDF .....	D-1
Drawing Walls .....	D-4
Inserting Doors .....	D-6
Inserting Windows.....	D-8
Viewing in 3D.....	D-8
Navigating in 3D.....	D-10
Customizing Framing .....	D-11
Creating a Foundation.....	D-14
Inserting a Structural Floor by Perimeter.....	D-17
Customizing Floor Framing.....	D-18
Inserting a Ceiling.....	D-19
Inserting a Roof .....	D-19
Converting a Hip Roof to a Gable Roof .....	D-19
Platform Framing at Gable Ends.....	D-22
Generating a Quote .....	D-23
<b>PHASE E: LEARNING BENCH MARK .....</b>	<b>E-25</b>
<b>PHASE F: CREATING A MODEL .....</b>	<b>F-1</b>
Setting Up a New Project.....	F-1
Drawing Walls .....	F-3
Adding Interior Walls .....	F-6
Inserting Doors, Windows and Openings .....	F-14

Creating a Foundation.....	F-20
Cutting an Opening in a Floor .....	F-32
Lowering Walls .....	F-33
Editing Wall Properties.....	F-34
Inserting a Floor in a Room .....	F-34
Lowering Elements in the Garage.....	F-34
Editing the Infill Configuration of Selected Walls .....	F-35
Inserting Ceilings.....	F-36
Creating a New 3D Camera View .....	F-41
Inserting a Roof .....	F-42
<b>PHASE G: ROOF FRAMING .....</b>	<b>G-1</b>
Roof Framing Settings .....	G-1
Converting Roof Framing to Members .....	G-3
Moving and Deleting Rafters.....	G-3
Modifying and Adding Roof Frame Members .....	G-3
Ladder Framing .....	G-5
<b>PHASE H: QUOTE GENERATOR.....</b>	<b>H-1</b>
Generating a Quote .....	H-1
Overview of Quote Generator.....	H-1
Overview of a Quote.....	H-5
Importing a Product Database.....	H-6
Replacing Items with Stock Products .....	H-7
Price Controls .....	H-9
Working in Admin Mode.....	H-9
Viewing Reports in Quote Generator .....	H-10
Saving a Quote.....	H-14
<b>PHASE I: POLE BARN, DECKS &amp; WALL PANEL DIAGRAMS.....</b>	<b>I-15</b>
Pole Barn Infill Configuration .....	I-15
Assemblies.....	I-18
Creating a Pole Barn Wall in the catalog.....	I-19
Creating a Custom Template .....	I-22
Pole Barn Project Using the Shed Wizard .....	I-25
Decks .....	I-26
Shed Roof using a Surface.....	I-27
Wall Panel Diagrams .....	I-28
<b>PHASE J: LEARNING BENCH MARK II .....</b>	<b>J-31</b>
Bench Mark Specifications .....	J-31

Project Specifications .....	J-31
Bonus Question Specifications .....	J-31
Bonus Question Project Specifications .....	J-31
