

Specification	Gaia II		
	GAI1-5106	GAI1-5110	GAI1-5120
Laser Source	60W	100W	200W
	Sealed CO ₂ Laser		
Cooling	Air-cooled		Water-cooled
Work Area	50.7 x 36.1 in. (1290 x 916 mm)		
Max. Part Size (W x L x H)	Normal	50.7 x 36.1 x 2.3 in. (1290 x 916 x 60 mm)	
	With SmartEXT	50.7 x w x 1 in. (1290 x w x 25 mm)	
	With Honeycomb	48.8 x 32.2 x 1.0 in. (1240 x 818 x 25 mm) / (With Sink-in Honeycomb Table)	
Dimensions	71.6 x 49.2 x 52.3 in. (1820 x 1250 x 1330 mm)		
Weight	420 kg / 924 lb		440 kg / 968 lb
Drive	AC Servo Control		
Maximum Speed*	30 IPS		
Throughput (SIPH-Square Inch Per Hour)	133.2 m ² /hr (864.2 cm ² /hr)		
Speed Control	Adjustable from 0.1-100% (Up to 16 color-linked speed settings per job)		
Power Control	Adjustable from 1-100% (Up to 16 color-linked power settings per job)		
Distance Accuracy	0.254 mm or 0.1% of move, whichever is greater		
Z-Axis Movement	Manual		
Focus Lens	Standard 4.0", optional 2.0" available		
Resolution (DPI)	Available 125, 250, 300, 500, 600, 1000		
Computer Interface	Standard printer port and USB port		
Memory Buffer	32MB standard		
Display Panel	4-line LCD panel showing current file name, total working time, laser power, engraving speed, file(s) loaded into memory buffer, setup and diagnostic menus.		
Safety	Class 3R for red pointer		
Cutting Table	Knife-shaped cutting table with collecting tray		
Facility Requirements			
Electrical	AC220V/15A	AC220V/20A	AC220V/20A
Power Consumption	3300W	4400W	4400W
Air Extraction System	External exhaust system required to connect to 8-inch opening on machine (Air volume) (free flow 1400 m ³ /h, static pressure 2700 pa)		
Air Compressor	Air compressor required		

* Speed is not equal to throughput. See dealer or visit www.laserpro.com for more details.

Optional Items

SmartGUARD™

AAS Contour Cutting Device

Supporting Pin Kit

Air Extraction System

Honeycomb Table

Water Chiller

G-Cut Professional Software

The Best Laser Cutting System Born for Professionals

LaserPro Gaia II

with handy engraving capability

Developed on the basis of LaserPro's accumulated technology and innovation in past years, LaserPro laser cutting system is a dedicated design to fulfill your cutting and engraving needs.

- ▶ 50" x 36" (1290 x 916 mm) working area
- ▶ Adjustable acceleration enables higher productivity
- ▶ AC Servo Motor Technology for precise movement control
- ▶ Laser Pulsing Technology for accurate laser firing control
- ▶ AAS Module performs automatic graphic contour tracking task
- ▶ Excellent engraving quality
- ▶ Easy maintenance

Laser Cutting System

LaserPro Cutting System — with handy engraving capability

Gaia II

The LaserPro Gaia II is designed and engineered for professional use ever since the beginning. Do not be fooled by the label of laser cutting system that is placed on the Gaia II, in fact the Gaia II is capable of exceptional engraving quality which separates it from the other laser cutting systems on the market. With a series of user-definable features and reserved extension slots for customization, the Gaia II is the most flexible and user-friendly laser cutting system on the market today.

User Friendly

SmartPOINT Positioning Device

(Patent Pending)

Material positioning made extremely easy by use of 4 red beam diodes. Simply aim each red beam diodes at distinct points on the material and the red beam becomes a very useful positioning tool to replicate previous jobs precisely.

Knife-shaped Cutting Table

Unique cutting table with tipped bars that can be easily adjusted without tools to create different levels of working depths. The cutting table of Gaia II reduces laser reflections and delivers clear cutting edge.

SmartLID Easy Access

Easy access design simplifies maintenance jobs and material loading. Interlock safety design prevents laser firing while the covers are not properly closed and ensures a safe working condition.

AAS Contour Cutting Device

(Patent Pending)

Developed by LaserPro, AAS is an exceptionally user-friendly operation which offers accurate and faultless contour cutting by automatically tracking the position of graphics.

Reliability

AC Servo Motor

A motor of high torque, high speed and high caliber works perfectly with the high demands of LaserPro Gaia II. The state of the art in AC Servo Motor design assures long motor lifetime and high precision.

Unique Motion Guide

A unique motion guide is designed specially for Gaia II by adopting a light weight and high strength structure, together with AC servo motor to provide first class stability and accuracy.

Application

• Wood Cutting

• Acrylic Cutting

• Engraving

• Marble 3D Engraving

QuickALIGN Remote Control

(Patent Pending)

QuickALIGN helps you to adjust the beam alignment easily through the user friendly design of remote control. Beam alignment will become much easier with this unique QuickALIGN design. Save time on adjustment, gain more time on operation.

LED Light Illumination System

A LED light module that illuminates the working space and makes every engraving detail easy to see.

G-Cut Professional Software (Optional)

G-Cut is a professional cutting software that offers a collection of special vector functions and enhances the output quality for vector cutting applications.

Productivity & Quality

Outstanding Cutting Capability

Gaia II delivers high cutting quality with LaserPro's unique laser firing control technology. Up to 200W output power options, LaserPro Gaia II can cut through 1" (25 mm) acrylic in a single pass with a smooth finish and unmatched clear cutting edge.

Superior Engraving Quality

Gaia II persists with GCC LaserPro's excellent engraving capability. Having cutting and engraving capacity in one product, no more time wasted on switching materials from cutting and engraving machine. Compare to conventional cutting product. It is difficult to have a good and consistent raster performance with large working area, but Gaia II can.
