

FormBox Specs

SIZE AND WEIGHT

Height - 315mm
Length (With Handles) - 466mm
Width - 274mm
Forming bed - 200mm x 200mm
Draw Depth - 130mm
Weight - 13kgs

POWER

We will ship the appropriate model based on your territory along with a plug adapter for your country. 110V and 240V are available. Temp range of the built-in heater is 160C - 340C.

HEATER

The metal can get quite hot, so to keep you safe, we've lined the front and back top edges next to the heater with two silicone strips. We've also added supportive guide rails on each side of the ceramic heater for safety in transit.

Design Detail

HANDLES

A tray click and handle design, with cast aluminum hinges, in one single mechanism. Using the FormBox is as easy as possible.

BED

A super fine mesh to increase airflow to the 3D shape, placed on the bed with a soft silicone edge.

ADAPTER

A universal adaptor that enables the Mayku FormBox to work with any vacuum cleaner.

TRAYS

ABEC 5 bearings for smooth operation.
Silicone seals to create a perfect seal.
Pressed steel for extra strength.
