

Hotronix®

AIR FUSION®

Heat printing simplicity through air-powered operation. The first fully automatic heat press - the Hotronix® Air Fusion® - makes it possible. Two push-buttons and a pedal are all that's required.

Available in a Pedestal and Table Top model.

AUTO ADJUST PRESSURE™ AUTO-ADJUSTS TO FIT YOUR NEEDS

Ideal for medium to high-volume shops, the Air Fusion® offers a two-button operation that locks the upper platen down with accurate, even pressure. It then swings open automatically to create a heat-free workspace. A tap of the foot pedal returns the upper platen. It's that simple.

Take the guesswork out of setting pressure. Whether you're printing a fleece sweatshirt or a lightweight T-shirt, the patented Auto Adjust Pressure™ automatically adjusts to the thickness of the item you're printing. Program your time to change from pre-heating to final application. With up to four time and pressure settings, it's not just possible – it's automatic.

AIR FUSION® PEDESTAL

PERFORMANCE

Auto open, auto swing operation

*Adjustable pedestal stand 37"- 44"

*Lockable casters

User-safe push-button/foot pedal operation

Auto, semi-auto, or manual mode

Touch screen control system with stylus

Heat-free work surface
