26" Standard Silver Finish
18" Red & Aqua Stools

Proudly Made

THE IDEA ISLAND

Invent. Dream. Excite. Aspire.

The IDEA Island by CEF has joined the family of our award winning Ed Table line. The creation of the IDEA Island was inspired by the many makers in school systems, public libraries and museums across the nation that are dedicated to inspiring creativity in children and adults. By these educators pushing the limits of what can be accomplished in the classroom and beyond, we were challenged to create a piece that would help drive their efforts. The marriage of industrial design with warm wood coupled with strength and innovation, immediately inspires when you step up to our IDEA Island. It is offered in the simplest form-table only, or can be dressed up with technology and seating for up to 8 people.

42" Shown with 30" teal & orange stools with electrical

34" Shown with 24" purple & silver stools with electrical
