Get a
**FREE Air
Manager**

Celebrate with us as the new UltiMaker

Your special bonus offer is waiting

The Ultimaker S5 3D printer is a workhorse of a machine – powerful, versatile, and capable of printing in both plastic and metal materials. When combined with an Air Manager, users can safely operate the equipment in environments with the strictest compliance standards.

Investing in an Ultimaker S5 3D printer means:

24/7 uninterrupted printing

Reliable, professional 3D printing right on your desktop. Rated 4.5/5 stars by TechRadar

Flexible, metal-ready, all-in-one platform

One printer does it all – seamlessly switch between polymers, abrasives, and metals with the included CC print core

Secure, cloud-based software

ISO 27001 compliant and integrated with Ultimaker Cura, the #1 most trusted 3D printing software

Widest range of materials

200+ proven material profiles unlock more applications, all enabled by quick-swap print cores

Office-safe printing with the Air Manager add-on

Proven to remove up to 95% of ultrafine particles

For a limited time, purchase an S5 3D printer and a CC print core, get a bonus Air Manager for free **(\$850 savings)***
