

Technology Education Concepts

Don't Miss This! Coming This July!

Intensive, Individualized, Hands-on Training and STEM-Oriented Activities for Educators Taught by Certified Professionals!

No experience necessary! All skill levels welcome!

Courses are 1-, 2- or 3-day sessions designed for Educators. TEC Summer Institute (TSI) attendees have the opportunity to receive 8-24 (or more!) hours instructional hours of hands-on training, classroom materials, and innovative curriculum ideas designed to assist educators by increasing their knowledge of Laser Technologies, 3D Printing, Graphic Technologies, and Architectural CAD. Start your new school year with fresh, exciting new ideas from TSI and get inspiration from fellow educators!

Why Should You Attend?

- Familiarize yourself with the latest developments in Laser Technologies, Graphic Technologies, Architectural CAD, and 3D Printing!
- Opportunity to earn 24+ PDU credits!
- Review the most current methods of integrating industry trends into practical classroom applications.
- Network with colleagues and friends in Technology & Engineering Education!
